## HANESBRANDS REPORTS THIRD-QUARTER 2012 RESULTS

WINSTON-SALEM, N.C. (Oct. 23, 2012) – HanesBrands (NYSE: HBI), a leading marketer of everyday branded basic apparel, today reported third-quarter net sales increased 3 percent, earnings per diluted share for continuing operations increased 31 percent to \$1.11, and free cash flow totaled \$287 million.

Net sales for the quarter ended Sept. 29, 2012, totaled \$1.22 billion, up from \$1.19 billion a year ago. EPS growth contributors included Innerwear segment performance and across-the-board tight expense control. (Unless noted, all performance measures are for continuing operations. Discontinued operations are discussed later in this press release.)

For 2012 full-year guidance, the company increased the low end of its EPS range by 4 cents to \$2.54 to \$2.60. It expects net sales of approximately \$4.52 billion and free cash flow of approximately \$500 million, the high end of its previous range.

"We are executing well and had a very good quarter as reflected in our operating margin, free cash flow and EPS, all of which are all-time quarterly records," Hanes Chairman and Chief Executive Officer Richard A. Noll said. "Cotton inflation is behind us, and we are generating momentum for continued growth."

### Third-Quarter Business Highlights

• The company's overall operating profit margin increased 60 basis points to 12.8 percent in the quarter, reflecting continuous sequential improvement since the first quarter. Selling, general and administrative expenses decreased as a percentage of net sales, mitigating the impact of higher cotton costs.

The company generated free cash flow of \$287 million in the quarter and has now completed the retirement of approximately \$300 million of floating-rate bond debt as planned in 2012.

• Innerwear segment net sales increased 3 percent in the quarter and operating profit increased 10 percent. Excluding sales declines to a mid-tier retail customer that is undergoing a major strategic shift, Innerwear sales would have increased 5 percent in the third quarter versus last year.

# HanesBrands Reports Third Quarter 2012 Results – Page 2

Innerwear sales growth has increased for three consecutive quarters in 2012. The 3 percent growth in the third quarter built on 2 percent growth in the second quarter and 1 percent growth in the first quarter. *Hanes* and *Champion* underwear combined for double-digit growth and women's panties growth was in the mid-single digits. New-product innovation contributed to growth, including *Hanes* ComfortBlend men's underwear, *Hanes* Classics slim fit and stretch premium underwear T-shirts, and *Bali* and *Barely There* Smart Size seamless bras.

- Outerwear segment net sales increased 5 percent in the quarter, while operating profit declined 4 percent. Sales for *Champion* activewear and Gear for Sports licensed apparel increased, but higher cotton costs suppressed segment operating profitability.
- International segment net sales declined 3 percent, while increasing 2 percent on a constant currency basis, and operating profit increased 19 percent on a reported basis.
- Net sales for the Direct to Consumer segment increased 2 percent, and operating profit increased 18 percent.

# 2012 Guidance

Hanes' revised 2012 full-year guidance for continuing operations is diluted EPS of \$2.54 to \$2.60, compared with previous guidance of \$2.50 to \$2.60. Net sales are expected to increase approximately 2 percent to approximately \$4.52 billion, compared with previous guidance of \$4.52 billion to \$4.57 billion. Full-year free cash flow is expected to be approximately \$500 million, the high end of the previous range of \$400 million to \$500 million.

The corresponding guidance for the fourth-quarter is net sales of approximately \$1.13 billion to \$1.17 billion and EPS of \$1.00 to \$1.06. The company expects a gross margin percentage in the mid-30s and an operating profit margin of slightly more than 13 percent. Interest expense is expected to be approximately \$33 million, and the effective tax rate is expected to be in the midteens.

The company's guidance for continuing operations is based on the following facts. Product pricing, shelf space, and promotion plans for the remainder of 2012 have been finalized with major retail accounts. All commodity costs have been fixed for the remainder of the year, with the company incurring significantly lower cotton and other inflation impacts for the remainder of the year.

The company will continue to focus its use of free cash flow on debt retirement. In 2012, the company retired all of its approximately \$300 million of floating rate notes. For 2013, the company remains committed to prepaying all of its \$500 million of 8 percent fixed-rate notes.

The company continues to believe that a reasonable estimate of EPS potential in 2013 is in the low \$3 range.

## **Discontinued Operations**

In May 2012, the company announced exiting certain international and domestic imagewear businesses that are all now classified as discontinued operations.

On May 30, Hanes sold its European imagewear business, and the company has substantially completed the discontinuation of its private-label and Outer Banks domestic imagewear operations serving wholesalers that sell to the screen-print industry. In accordance with GAAP requirements, the company reported results for the second and third quarters on a continuing-operations basis and revised prior-period results to reflect continuing operations. The company's branded printwear operations will continue to operate and serve the branded domestic screen-print market.

For the first nine months, discontinued operations reported a loss per diluted share of  $0.70 - a \log of 0.03$  in the first quarter, a loss of 0.66 in the second quarter, and a loss of 0.01 in the third quarter.

More information on discontinued operations and financial results for prior-period continuing operations is available in the investors section of the company's corporate website, <u>http://tiny.cc/HanesBrandsIR</u>, and will be available in the company's Form 10-Q filing for the third quarter.

## Note on Non-GAAP Terms and Definitions

Free cash flow and EBITDA are not generally accepted accounting principle measures.

Free cash flow is defined as net cash from operating activities less net capital expenditures. Free cash flow may not be representative of the amount of residual cash flow that is available to the company for discretionary expenditures since it may not include deductions for mandatory debt-service requirements and other nondiscretionary expenditures. The company believes, however, that free cash flow is a useful measure of the cash-generating ability of the business relative to capital expenditures and financial performance. See Table 4 and its footnotes attached to this press release to reconcile free cash flow for the year to date and third quarter to the GAAP measure of net cash provided by operating activities.

EBITDA is defined as earnings from continuing operations before interest, taxes, depreciation, and amortization. Although the company does not use EBITDA to manage its business, it believes that EBITDA is another way that investors measure financial performance. See Table 2 attached to this press release to reconcile EBITDA to the GAAP measure of net income from continuing operations.

Hanes has chosen to provide these measures to investors to enable additional analyses of past, present and future operating performance and as a supplemental means of evaluating company operations. Non-GAAP information should not be considered a substitute for financial information presented in accordance with GAAP and may be different from non-GAAP or other pro forma measures used by other companies.

#### HANESBRANDS INC. Supplemental Financial Information (Dollars in thousands) (Unaudited)

<sup>1</sup> As a result of the reduced size of sheer hosiery and changing trends, HanesBrands decided in the first quarter of 2012 to change its external segment reporting to include hosiery operations within the Innerwear segment. Hosiery had previously been reported as a separate segment. Prior-year segment sales and operating profit results, including other minor allocation changes, have been revised to conform to the current-year presentation. In addition, in May 2012, HanesBrands sold its European imagewear business, and the company is completing the discontinuation of its private label and Outer Banks domestic imagewear operations serving wholesalers that sell to the screen-print industry. As a result, the current year and prior-year segment disclosures do not reflect the sales and operating profit results of these discontinued businesses.

<sup>2</sup> Earnings from continuing operations before interest, taxes, depreciation and amortization is a non-GAAP financial measure.

<sup>1</sup> Free cash flow is a non-GAAP measure. For the quarter ended September 29, 2012, net cash provided by operating activities (GAAP) was \$297 million and net capital expenditures were \$10 million, resulting in non-GAAP free cash flow of \$287 million. For 2012 guidance, net cash provided by operating activities (GAAP) is expected to be approximately \$545 million and net capital expenditures are expected to be approximately \$45 million, resulting in expectations for non-GAAP free cash flow of approximately \$500 million.
